## HOW AN AUCTION SALE WORKS

Perhaps you have wondered just how our auction sales of coins really work. If you have, this is what happens.

A large collection or a group of small collections are consigned by their owners to be sold at the best prices possible. We then assemble the coins in a reasonable order, making lots of one or more coins, as we determine the buyer will prefer. We then describe and catalog the lots, valuing them on a sensible basis, have picture plates made for some of the outstanding pieces, then have nearly 6000 catalogs printed and mailed to prospective buyers. Each catalog has a BID SHEET for the buyer to use along with a return envelope.

When the BID SHEETS are received they are numbered in the order of their receipt and the bids posted in a master BID BOOK. At the close of the sale, the BID BOOK is checked and the high bidder is awarded the lot at a normal advance over the second high bidder.

We do not take the entire bid if it is not necessary.

If the sale is a PUBLIC SALE, the master BID BOOK bids against the floor bidders present in the auction room on the sale date.

If the sale is a MAIL SALE, we usually close it on Friday. The following Monday after the final bids have been checked into the BID BOOK, the high bids marked and the lots awarded, we start the slow and laborious process of rechecking each BID SHEET and assembling the lots won. With thousands of bids on hundreds of BID SHEETS, this naturally takes time. However, we always have all lots in the mail by the second week after the sale. Naturally, if your bids came in during the last few days, you will be among the last to receive your lots.

A final word — the offering of ridiculously low bids that are only 10% to 20% of the estimate of value is a waste of time. Many dealers place a standing order for various types of material at prices from 50% to 80% or more of the estimates.

Govern yourself accordingly, and do enjoy this great hobby.

Also to be included is the NUEVO REINO 1759 PILLAR DOLLAR, as well as many other rare and scarce coins that are needed today by a rapidly growing number of ardent collectors.

Consignments commensurate in quality with these standards are welcome now and in the future.

I am preparing several specially printed coin pages to cover various groups of Spanish American coins. Write me if you are interested in any particular set-up. If enough express an interest for a specific set-up, I'll be glad to work it out.

## KNOWLEDGE IS THE KEY TO INTELLIGENT COLLECTING

In addition to the American Numismatic Association, to which you probably belong, you should seriously consider membership in the American Numismatic Society. Write them for details.

For those interested in the vast and interesting field of numismatics in the lands to the south of the United States, I recommend membership in the following societies:

SOCIEDAD NUMISMATICA DE MEXICO —  
MEXICO CITY

SOCIEDAD NUMISMATICA DE PUEBLA —  
PUEBLA, MEXICO

ASOCIACION NUMISMATICA ESPAÑOLA —  
BARCELONA, SPAIN

The first two each issue quarterly bulletins, with emphasis on Mexican issues. Dues are \$5.00 annually for each one plus a nominal initiation fee.

The A. N. E. maintains club rooms in Barcelona. One or more large illustrated sale catalogs are issued each year. Dues are \$2.00 per year plus the usual initiation fee.

You may write me about each of these three societies not in the U. S. I will act for them and for you.
